

Tips For Pics

1. Once sent, messages and images can't be taken back.
2. **Whatever we post online, stays online – forever.**
3. Sending inappropriate pics threatens our reputation, privacy and future education/employment opportunities.
4. Use professional addresses for applications.
Suggestive email addresses (*i.e. partygurl@yahoo.com or hotguy@msn.com*) send a **red flag** to colleges and employers.
5. We should not let peer pressure force us into doing things we know are wrong, even if it's "just for fun."
6. Pictures are part of our online footprint that follows us far into the future.
7. Our online and electronic actions contribute to the real-life impression we make on others.
